

Touch. Experience. Connect.

Enable Discourse: Allow Investors to communicate with corporate office and even each other from *inside the report itself*.

Promote and Market: Make your annual report part of your social media marketing campaign. Share the news!

Analytics & Tracking
Behind the scenes analytics tell you *who* is reading, *where* they are reading, *what* they are reading and *how often*.

Built-In Translations: With one touch, Investors in multiple jurisdictions can read the report in their native language.

Customizable: Provide Investors with the controls you want: layout, notifications, geo-location on/off.

Secure: set levels of content based on login credentials and control and track your readership.

Push Anytime: ePublish once, then simply update through the quarters. Or make post-publication corrections anytime.

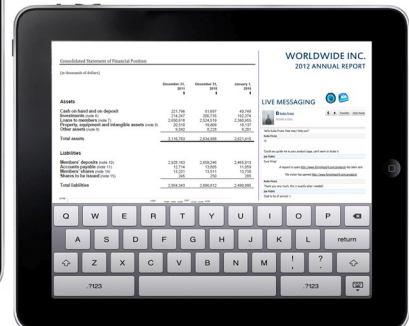

Media Rich

- Live text allows for instant translations and instant updates.
- Retinal display graphics give your report the impact it needs.
- Embedded HD Video means your message will be seen, even with subtitles.
- External Links tells Investors you are connected to the outside world.

Interactive Graphics

- Uniquely interactive graphs, charts and menus present information in the way you want it to be seen and experienced.
- Intuitive menus that give Investors the power to quickly find the information they need.

Communicate & Collaborate

- Built-in messaging allows you to communicate directly with your Investors through our secure cloud-based collaboration features.
- Enable Investors to connect with each other and build a community around your company.
