

PADWORX DIGITAL MEDIA INC

An award-winning developer for iOS, Android™ and Windows™ platforms.

Interactive Content engages your audience.

PadWorx products are visually-stunning interactive experiences that draw audiences in and keep them there. By making your content interactive, with video, sound and cutting-edge graphics our apps ensure your audience notices you sooner and remains engaged longer.

Immersive Content builds an audience that

cares about your brand. Marketing gurus know that an immersive message means an invested audience who cares about your brand. PadWorx has proven expertise in creating tablet-based immersive experiences and will help you draw the audience into your story.

Connected Content builds a following around your message.

Through its leading-edge, cloud-based PadXtec™ services, PadWorx provides you the tools to build an active community around your brand or content. With built-in chat and collaboration tools and full social media integration, our products connect your audience both to you and each other.

Introducing PadXtec™ Cloud & Analytics Services

Businesses today face the same challenge: How to communicate with their customers, stakeholders, and the public in a way that engages, informs and connects.

With PadXtec™, our innovative app-development analytics and cloud-based services, we deliver your content in the best interactive way, build a community around it, and track and measure the results throughout. Our apps bring your content to life, making it stand out for your market, while giving you effective tools to expand your market and gain real business intelligence.

Touch. Experience. Connect.
